

Special Forum

Lipids@Wayne Symposium

In Tribute to Dr. Kenneth V. Honn

Lipids@Wayne, a Midwest forum for exchange of research ideas and knowledge in lipid research, is organizing a symposium to honor the scientific legacy of the late Dr. Kenneth V. Honn, Distinguished Professor in the Department of Pathology. Professor Honn was a pioneer in establishing the role and advancement of lipid mediators, which opened the potential for new therapeutic approaches in cancer, tumor metastasis and inflammatory diseases. Dr. Honn passed away on May 9, 2023. This tribute is jointly organized by Lipids@Wayne, the Lipid Research community at Wayne State University, and the Eicosanoid Research Foundation that Dr. Honn helped establish in 1989 to promote scientific exchange on the role of lipids in cancer, inflammation, and related diseases. ◆

Kenneth V. Honn, Ph.D.
(1946-2023)

Wednesday, Nov. 8, 2023

8:30 a.m. to 5:30 p.m.

A. Paul Schaap Chemistry
Building and Lecture Hall
Wayne State University
5101 Cass Avenue
Detroit, MI, 48236

SPEAKERS

Edward A. Dennis, Ph.D., Distinguished Professor of Chemistry & Biochemistry, University of California at San Diego, San Diego CA: *Novel Lipidomics Platform to Determine Phospholipase A2 Specificity and PUFA-Derived Mediators in Macrophages*

Megan L. Falsetta, Ph.D., Assistant Professor of Obstetrics & Gynecology, University of Rochester Medical Center, Rochester, NY: *Revisiting Vulvar Vestibulitis: Inflammation, Lipid Dysbiosis, and Chronic Vulvar Pain*

Miriam L. Greenberg, Ph.D., Professor of Biological Sciences, Wayne State University, Detroit, MI: *Cardiolipin at the epicenter of energy metabolism – Implications for Barth syndrome*

Lawrence J. Marnett, Ph.D., University Distinguished Professor, Vanderbilt University School of Medicine, Nashville, TN: *The Structural Biology of Cyclooxygenase-2 Inhibition and Imaging*

David G. Menter, Ph.D., Assistant Professor of Gastrointestinal Medical Oncology, The University of Texas MD Anderson Cancer Center, Houston, TX: *Platelets, prostaglandins, and tumor-immune interactions*

Dipak Panigrahy, M.D., Assistant Professor of Pathology, Harvard University, Boston, MA: *SPMs in cancer: promoting innate and adaptive anti-tumor immunity*

Charles N. Serhan, Ph.D., D.Sc., Simon Gelman Professor of Anaesthesia (Biochemistry and Molecular Pharmacology), Harvard University, Boston, MA: *Resolvins: New Signals linking Resolution of Inflammation and Regeneration*

Gabor J. Tigyi, MD, Ph.D., Harriet Van Vleet Professor of Physiology & Chemistry, University of Tennessee Health Science Center, Memphis, TN: *LPA in cancer: The stem cell, the microenvironment, and tumor immunity*

Darryl C. Zeldin, M.D., Scientific Director, NIH/NIEHS, Research Triangle Park, NC: *Attenuation of the COVID-19 Eicosanoid Storm by Soluble Epoxide Hydrolase Inhibitors*

Poster Exhibit
9 a.m. – 5 p.m.

Poster Presentations
Noon – 2 p.m.

Three posters will be selected for presentation of the Kenneth V. Honn, Ph.D. Memorial Awards.

Please visit lipids.wayne.edu/symposium/2023 or scan the QR code for registration and abstract submission. Symposium is free but registration is required
